1. Organization: Rosenzweig Center for Rapid Recovery, LLC
 2. Contact person: Robin Pickett
 3. Title of program: Basic Accelerated Resolution Therapy (ART) Training
 4. Presenters(s): See training schedule. <http://acceleratedresolutiontherapy.com/types-of-training-available/>
 5. Dates of presentation: See training schedule. <http://acceleratedresolutiontherapy.com/types-of-training-available/>
 6. Program Fees: \$1500.
 7. Continuing Education (CE) credits: 21.5
 8. Registration Policy: If requested, a full or partial refund of any payment will be considered only if stated, in writing, at least 72 hours prior to the start date of the seminar. RCRR reserves the right to access a cancellation fee of \$100. Registrants requesting a transfer of funds to a future training date will be assessed a \$50 transfer fee and be eligible to attend for a period of 6 months from date of original payment. If for any reason, RCRR cancels or reschedules a seminar after receipt of your payment, you may transfer your funds to a future seminar or request a refund and such request will not be unreasonably denied.
 9. Location: See training schedule. <http://acceleratedresolutiontherapy.com/types-of-training-available/>
 10. Target Audience: Social Workers, Psychologists, Mental Health Professionals
 11. The program is Beginning Level training.
 12. Instructional methodology
(X) Lecture (X) Case Presentation (X) Interactive Exercises (X) Audio/Visual (X) Discussion Groups
 13. Course Description: The training program is a combination of video clips showing the application of the therapy model as well as hands on practice and interactive lecture and does not rely on a Powerpoint presentation. The power of eye movements combines with a multitude of therapies and therapeutic interventions results in the magic and creativity of Accelerated Resolution Therapy (**ART**). **ART** is an eye movement therapy that can quickly aid clients in resolving their issues. The eye movements are calming and make new connections with existing information in the brain and they can aid a client in making behavioral changes. During the three-day Basic ART training participants will learn how to use **ART** with client to reduce the symptoms of anxiety, sexual abuse, grief, obsessive compulsive thinking and PTSD.

Objectives

After completing the three-day Basic ART training, attendees will be able to:

1. define Accelerated Resolution Therapy (**ART**) and its applicability to mental health problems.
2. identify the benefits of **ART** eye movement therapy.
3. discuss the theory of **ART** and how it works to relieve client symptoms of anxiety
4. identify which mental health problems can be addressed by **ART**
5. practice and learn how to apply **ART** with clients
6. identify how to incorporate **ART** interventional into their clinical practice
7. fine tune (or enhance) clinical skills to improve clients' quality of life and significantly reduce anxiety, depression and symptoms of PTSD, anger, grief, sexual abuse and obsessive compulsive thinking.
8. introduce interventions to replace negative images with positive memories.
9. accomplish effective outcomes using a brief model.
10. augment current clinical tools.

14. Training Schedule
